

 **TOYOTA RAV4**
oh what a *feeling!*

All New RAV4. Bursting with uncompact thinking.

All New RAV4. Uncompact thinking from Toyota.

All New RAV4 has more of what you want, where you need it. Noticeably bigger and roomier with comfortable seating for 5 adults, it's packed with storage compartments. Plus it has a large boot that becomes even larger when the back seats are folded flat. It's uncompact and uncomplicated for no nonsense fun.

Step in, stretch out.

The All New RAV4 is now bursting with 20% more interior space. It is larger in every possible way, as greater body dimensions result in more wide open spaces inside. A remote release action folds the split rear seats flat, leaving you with more cargo area. The All New RAV4 has an abundance of storage compartments such as handy upper and lower gloveboxes, two shelf centre console box, cupholders and bottle holders in each door. In the rear, there's a hidden storage box under the rear deck, while a roll out tonneau cover keeps your valuable belongings hidden. Now that's uncompact thinking.

The power of new technology.

A comprehensive Driver Assist Technology (DAT) package ensures a greater sense of control, whatever conditions you come up against. For the first time, Toyota's most popular compact Sports Utility Vehicle (SUV) comes with an Active All Wheel Drive (AWD) system. This system allows the vehicle to switch continuously from front wheel drive to AWD and automatically engages when it anticipates a loss of traction. Also, as part of this package comes Electric Power Steering (EPS), and when stepping up to the Cruiser and Cruiser L models – Vehicle Stability Control (VSC), Hill-start Assist Control (HAC) & on automatic models, Downhill Assist Control (DAC). Toyota's new Vehicle Control Management System (VCMS) links the All New RAV4's various traction enhancing technologies together for greater vehicle control.

Safety systems that think ahead.

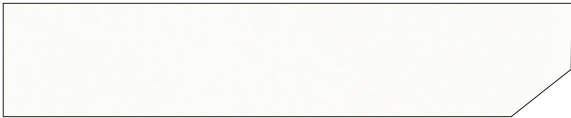

A total package of active safety measures on All New RAV4 puts it a step ahead in lots of ways. The technology of Active AWD and other traction innovations gives All New RAV4 a firm footing. The Anti-skid Braking System (ABS) incorporates Electronic Brake-force Distribution (EBD). Brake Assist (BA) is also standard. On the Cruiser and Cruiser L models, the various Driver Assist Technology (DAT) features play an active role in safety. These all new safety features include Vehicle Stability Control (VSC), Traction Control (TRC), Hill-start Assist Control (HAC) and, on automatic models, Downhill Assist Control (DAC).

RAV4 technical specifications

Engine

Engine type – Petrol
Engine code – 2AZ-FE
Engine displacement – 2362cc
Engine configuration – 4 cylinder in-line
Valve train – Double Over Head Camshaft (DOHC) with 4 valves per cylinder
Valve mechanism – Variable Valve Timing with intelligence (VVT-i)
Max. power – 125kW/6000rpm
Max. torque – 224Nm/4000rpm

Fuel

Fuel system – Electronic Fuel Injection (EFI)
Fuel type – 91 RON unleaded

Transmission

Driveline – Active Torque Control 4WD
Transmission – 5 speed manual / 4 speed electronically controlled automatic
with lock-up torque converter (optional)

Steering

Steering system – Rack and pinion
Steering operation – Electric Power Steering (EPS)
Turns lock to lock – 2.8
Turning circle – 10.6m

Brakes

Front – 296mm ventilated disc
Rear – 281mm solid disc
Anti-skid Braking System (ABS) with Electronic Brake-force Distribution (EBD)
and Brake Assist (BA)

Suspension

Front – Independent Macpherson strut type
Rear – Independent trailing arm double wishbone type

Dimensions

Overall length: 4600mm
Overall width: CV – 1815mm, Cruiser & Cruiser L – 1855mm
Overall height: CV – 1695mm, Cruiser & Cruiser L – 1730mm
Wheelbase – 2660mm
Front and rear track – 1560mm
Ground clearance (unladen) – 195mm
Approach angle (degrees) – 30
Departure angle (degrees) – 26
Ramp over angle (degrees) – 20

Weights/Capacities

Seating capacity – 5
Fuel tank capacity (litres) – 60

Kerb weight (kg)*

CV manual – 1550kg
CV automatic – 1590kg
Cruiser manual – 1550kg
Cruiser automatic – 1590kg
Cruiser L manual – 1500kg
Cruiser L automatic – 1500kg

Towing capacity

Without trailer brakes – 750kg
With trailer brakes – 1500kg

Towing capacity is subject to state regulations and towbar design.

* Kerb weights are nominal and will vary depending on options and accessories.
